

ONLINE PROTECTION TOOLS | FOR PARENTS

The following are some great resources for protecting and safeguarding your children against inappropriate content online via computer, cell phone, tablet, etc. We would also encourage you to check out the <http://XXXchurch.com/parents> parent blog, which is frequently updated resource blog.

MAC / PC

1. *X3Watch* - is an incredible program, for both the computer and mobile smartphone, created by xxxChurch.com that will block and notify you of questionable sites. Features and restrictions are customizable.
 - <http://X3watch.com>
2. *Safe Eyes* - will both block inappropriate sites and notify an admin of questionable websites that are visited. Features and restrictions are customizable.
 - <http://SafeEyes.com>
3. *Covenant Eyes* - on the PC, you can filter and provide email accountability. On the MAC, you can only use it for email accountability.
